

# MD JUNAID AHMED ZAMA

## MERN STACK WEB DEVELOPER

Address: Dhaka, Bangladesh · Phone : +8801972683868

Email: [junaidahmedzama@gmail.com](mailto:junaidahmedzama@gmail.com) · [GitHub](#) · [LinkedIn](#)

---

A hardworking student seeking employment. Bringing forth a motivated attitude and a variety of powerful web development skills. Committed to utilizing my skills to further the mission of a company.

## SKILLS

### COMFORTABLE WITH :

- HTML5
- CSS3
- JavaScript
- Tailwind CSS
- Bootstrap
- React Bootstrap
- Firebase
- ExpressJS
- Material UI
- React JS
- Node JS
- MongoDB

### TOOLS:

- Visual Studio Code
- Chrome Developer Tools
- GitHub
- Netlify
- Heroku
- Figma

## PROJECTS:

### ❖ GYMSTER WEBSITE:

[Live site Link](#) || [Source code link](#)

- **Technologies Used** : Bootstrap, React Bootstrap, CSS3, JavaScript, React JS, Firebase, ImageBB, React Hook Forms, React Router Dom, Sweet Alert, Github, Netlify.
- On this website, I've created a responsive navigation bar with a hamburger menu and used navlink/hashlink on the options, which take the user to the respective route or section.
- I've used firebase for user authentication, email password sign-in and google sign in, and the details page of the products is protected.

### ❖ DRONE PILOT WEBSITE:

[Live site Link](#) || [Source code\(Client side\)](#) || [Source code\(Server side\)](#)

- **Technologies Used** : Bootstrap, CSS3, JavaScript, React JS, Firebase, Material UI, React Router Dom, Sweet Alert, NodeJS, MongoDB, ExpressJS, Axios, Github.

- On this website, I've created a responsive navigation bar with a hamburger menu and used NavLink/HashLink on the options, which take the user to the respective route or section.
- I've used Firebase for user authentication, Google sign-in, and the purchase page of the products is protected.
- I've created a dashboard for showing orders to users. Admins can manage products, add products and approve/delete any products and orders.

#### ❖ TRAVEL MASTER WEBSITE:

[Live site Link](#) || [Source code\(Client side\)](#) || [Source code\(Server side\)](#)

- **Technologies Used** : Bootstrap, CSS3, React Bootstrap, JavaScript, React JS, Firebase, Material UI, React Router Dom, Sweet Alert, NodeJS, MongoDB, ExpressJS, Axios, Github.
- On this website, I've created a responsive navigation bar with a hamburger menu and used NavLink/HashLink on the options, which take the user to the respective route or section.
- I've used Firebase for user authentication, email password sign in, and the purchase page of the products is protected.
- Users logged in will see options on the navbar like my bookings, manage all bookings and add package, by which they'll be able to approve/cancel their or others' bookings and add more travel packages.

#### LANGUAGES:

- Bengali – Native
- English - Fluent

#### EXTRA-CURRICULAR ACTIVITIES:

- Complete Web Development Course, Programming Hero
- Python For Beginners, Interactive Cares
